

Lube Technology Co., Ltd.

Introducing Drawing Oil

Drawing oil

We offer products for purposes such as pipe drawing, warm processing, and secondary lubrication after phosphoric acid treatment. You can expect excellent lubrication performance.

Representative products

G-708

An oil agent that replaces metal soap used after phosphoric acid treatment. Used for high area reduction ratio of base treatment materials.

G-2576

Dry film type lubricant. Dry coating treatment of untreated wood.

G-3704

Oil containing special additives. Used for high area reduction, good annealing properties.

Introducing Rolling Oil

Rolling oil

We offer products suitable for multi-roll and rotary swaging processing.

Representative products

G-955 rolling oil

Suitable for rolling ultra-thin sheets of permalloy, tantalum, stainless steel, beryllium copper, phosphor bronze, nickel silver, etc.

G-957 rolling oil

Suitable for multi-roll and rotary swaging processing.
